New Signage added to Jamaica Post South Camp Road, Kingston

Post and Telecommunications Department (Jamaica Post), 6-10 South Camp Road, Kingston boasts brand new signage, with sections of the exterior of the building that have been freshly repainted.

As part of the thrust to improve the facilities of the island's postal network, the Post and Telecommunications Department (Jamaica Post) has added a brand new sign to the Corporate Office, located at 6-10 South Camp Road, Kingston. Sections of the exterior of the building have also been repainted. The upgrades have enhanced the aesthetics of the location which is a major hub for commercial and administrative activities, including the Central Sorting Office (CSO) Post Office and Sutherland Global.

This activity further positively promotes the Jamaica Post brand as these improvements are a continuation of extensive renovation works that have been ongoing since 2022, which commenced with the rebranding and reopening of the CSO Post Office in October 2022. This also signals the Department's commitment to upgrade the physical infrastructure of other post offices islandwide on a phased basis.
